Terms & Conditions

1 International Emergency Medical Assistance

- 1.1 This is one of the benefits of your plan. The service is provided by an international assistance company who act for us.
- 1.2 The terms and definitions in your plan also apply to the service, and any limitation of cover for the service shown in the benefits table will apply. For this section only, we have given some more words and phrases special meanings. These are:
- a. appointed doctor: a medical practitioner chosen by us to advise us on the member's medical condition and/or need for the service and/or the suitability and adequacy of the medical facilities in the country where the member has been admitted to hospital.
 - b. service: moving the member to another hospital which has the necessary medical facilities either in the country where the member is taken ill or in another nearby country (evacuation) or bringing them back to their principal country of residence.
 - c. hospital: any establishment which is licensed as a medical or surgical hospital in the country where it operates.
 - d. principal country of residence: the country where you live or intend to live for most of the year which will be shown as your address in our records.
 - e. home country: the country as shown in our records which the member regards as home and which issues the member's passport.
 - f. Inter Partner Assistance Dublin (IPAD): international assistance company we have appointed to act for us.
- 1.3 The service is available worldwide to any member who is injured or becomes ill

suddenly and needs immediate hospital treatment as an in-patient. The service is only available in these circumstances and as follows:

- a. if the member is admitted to hospital while abroad from their principal country of residence then, if in the opinion of the appointed doctor the medical facilities there are not suitable or adequate, they will be entitled to evacuation or repatriation;
- b. if the member is admitted to hospital while in their principal country of residence then, if in the opinion of the appointed doctor the medical facilities in the principal country of residence are not suitable or adequate, the member will be evacuated to the nearest place where appropriate services are available.
- c. following evacuation, in accordance with paragraphs 1.3(a) or 1.3(b) above, the member concerned shall be entitled to be returned, by regular scheduled airline unless we agree that another means of transport is necessary, to his/her principal country of residence.

Note: Members are not entitled to be repatriated to their home country when admitted to hospital in their principal country of residence. Evacuation will always be to the nearest place where the necessary facilities are available. It follows that a member may be evacuated to the home country but only if we conclude that, on the basis of the medical facts, this is the nearest appropriate destination.

- 1.4 The exclusions in the membership agreement do not apply to the service but will apply to any treatment received following repatriation to the principal country of residence, or any country to which the member has been evacuated. If the service is needed, you must contact the emergency control center so that immediate help or advice can be given over

the phone. Arrangements may then be made for an appointed doctor to make all necessary enquiries and arrange to move them if necessary. If an appointed doctor thinks it is necessary, then the service will be carried out under medical supervision.

- 1.5 All the arrangements must be made by us. The member may be transported by air ambulance, by a regular airline or by any other method of transport we consider appropriate. We will decide the method of transport and the date and time.
- 1.6 In all cases where the Member is under 18, and in other cases where, in the opinion of the appointed doctor, the medical condition makes it appropriate, another person, who must be 18 or over, may accompany the Member while they are being moved. We will pay the reasonable and necessary costs of this, including any additional accommodation costs, where no travel policy is in place.
- 1.7 If a Member dies while abroad from their home country, we will arrange and pay the costs of repatriation of the mortal remains to a mortuary in the principal country of residence or their Home Country.
